 Rate It Save It

PARIS -- UBIqube Solutions, the global integrated network, security and VoIP management solution vendor, and Dominion/Halógica, Brazilian IT and Telecom System Integrator, announced today their partnership to launch a suite of innovative managed security services.

Dominion/Halógica will be able to significantly expand the breadth and depth of its Managed Security Services offering in Brazil with UBIqube's innovative Converged Services Delivery Platform (SDP), MSActivator.

This partnership will establish Dominion/Halógica's managed security portfolio, a complete suite of services to address their customer's security requirements for Internet access, managed firewall, content filtering, IPS/IDS, VPN, vulnerability scanning, and log management services.

"Outsourced managed services are one of the fastest growing area (CAG 20%) in the current economy, particular among small and medium size businesses, and this strategic partnership offers Dominion/Halógica a flexible solution to participate in this growth. Equipped with UBIqube's MSActivatorTM, our partners can broaden their addressable markets while reducing their cost for delivering these new services," said Laton Palmer, VP Sales Americas, UBIqube Solutions.
